

'TIMES' IS ONLY FIFTEEN YEARS BEHIND TIMES

Describes Conditions at Pearl Harbor as They Were Prior to 1901

Since late in the year 1901—nearly 15 years ago—the entrance to Pearl Harbor has been 35 feet in depth, and with a channel width of 200 feet, which widens to 600 feet inside.

The Los Angeles Times, in the issue of January 15, printed an editorial headed "Wasting Three Millions," in which it is stated that the entrance to Pearl Harbor has a depth of only 11 feet, and that \$3,000,000 was expended there, though it is "practically impossible" to deepen the entrance. This, the Times asserts, is an instance of tapping the "pork barrel."

As a consequence of these misstatements when the Manoa leaves for the coast tomorrow afternoon she will carry letters to the editor of the Los Angeles newspaper from Raymond C. Brown, of the Chamber of Commerce, and A. P. Taylor of the Promotion Committee protesting against the misstatements, and pointing out that though in 1900 the Pearl Harbor entrance was only 10 feet in depth, it has been 35 feet deep since the latter part of 1901.

The editorial which is the cause of the protests follows, in full:

"Wasting Three Millions.
"As an instance of the facility with which the pork barrel at Washington is sometimes very foolishly tapped, it may be remembered that in 1906, after a sky rocket speech by Congressman Hobson depicting the dangers of an invasion from Japan, the house voted \$3,000,000 with a hurrah to build a harbor of safety and a drydock at Pearl Harbor on the island of Oahu near Honolulu.

"Our largest battleships have a water displacement of 26 feet and the entrance to Pearl Harbor has only a depth of 11 feet. It is practically impossible to deepen the entrance, for the bottom is coral rock.

"But the \$3,000,000 was expended, all the same."
"Instead of being 'practically impossible' to deepen the channel, the coral rock there is exceptionally easy to blast and dredge."

SIX FAMILIES WANT TO ADOPT MAUI ORPHAN

That the recent appear of the Spanish consul, made through the Star-Bulletin, asking some Honolulu to adopt the orphan boy of the Roman family, whose parents were drowned in the 1900 valley cloudburst on Maui, resulted in half a dozen applications for the youngster, was stated today by Senator Luis G. Gil, consul-general for Spain, at his office.

"I have had a number of applications for the 10-year-old boy, the oldest of the four children left orphans by the terrible flood," said Senator Gil. "None of those applying have yet received the approval of the consul, who is investigating the character of the families who wish to adopt the boy, before coming to a decision. Other families who would like to put in an application are asked to notify Mr. Gil, whose office is in room 8, Elite building, 170 South Hotel street.

A draft for the \$400 contributed by the management of Wailuku Plantation as a trust fund to be given the four orphans when they become of age, was received this morning at the office of C. Brewer & Company, and will be deposited with a local bank for judicious investment, so that it will be increasing as the orphans grow up.

Standard Oil Company of New York advanced the price of all grades and packages of kerosene for export 25 points.

MOST EXCITING OF SCHOFIELD GAMES IS TIE

Company E and Company A Each Roll Up Score of 21 in Game Divided By Noon

25th Infantry Football Series				
Standing of Teams.				
	Won.	Tied.	Lost.	Pts.
Company E	4	1	0	900
Company F	3	0	2	600
Company I	3	0	2	600
Company A	2	3	1	583
Company H	2	1	2	500
Company L	1	1	2	375
Company K	0	0	6	000

Company E, 21; Company A, 21.

[Special Star-Bulletin Correspondence]

SCHOFIELD BARRACKS, Jan. 31.

One of the most exciting games ever played on the gridiron at Schofield took place Saturday between two of the fastest teams of the 25th Infantry, and in spite of a large sized score on both sides the game ended in a tie. The first half was played in the morning, the game being interrupted by the preparations for the funeral of Pvt. Ectors of H Company. The funeral, however, did not take place.

The game was resumed at 1 o'clock with three minutes still to play to complete the first half. At the end of the first half the score was A Company 14, E Company 7. A Company had played all around E Company and had scored a safety, two field goals and a touchdown. Most of A Company's scores were due to fumbles by E Company's backfield, which did not play up to its usual standards. Kick Much Too Low.

In the afternoon Company E showed much improvement and ploughed through the much touted A Company line for two touchdowns. A Company in the meantime scoring one. E Company's last touchdown, made a few minutes before the end of the game, still left E Company one point behind. If they could kick goal the score would be tied; if they failed to kick goal A Company would win the game. Dawson's kick was much too low to clear the goal posts, but one of the A Company players charging out from under the goal to intercept the ball, touched the ball with the ends of his fingers and directed its course upward. Following its new trajectory the pigskin sailed over the bar and gave to E Company the much needed point to save them from defeat.

Company K forfeits game. Owing to the many difficulties and reverses they have met with during the season K Company has forfeited the remaining games, one going to the credit of A Company and one to the credit of I. The principal trouble in K Company has been in finding some one to coach the team. Sgt. Noble made a noble effort, but has had very little experience with football.

The next game is scheduled for Thursday afternoon when F and L Companies will play.

NEW SOUTHPAW AT SCHOFIELD SHOWS UP WELL

[Special Star-Bulletin Correspondence]
SCHOFIELD BARRACKS, Jan. 31.—Big Bill Inman, who had not been in the pitcher's box for many moons, displayed his nerve Saturday afternoon when he climbed upon the mound to pitch against the hard-hitting 25th Infantry. Except for lack of control his performance could pass muster.

A recruit southpaw by the name of Jackson pitched for the 25th. He is young and inexperienced, but is destined to make one of the best slabs at Schofield. Moore, another recruit, showed up well at third, but was weak at the bat, stepping away from the ball.

Crafton, who played left field, made a beautiful throw to the plate in the second inning that drew much well-deserved applause, and then proceeded to make an almost impossible catch that immediately crowned him a hero.

USING LOADED DICE, DAVID NOA BREAKS RECORDS AT CRAPS

Sailors who objected to David Noa having too much luck at 7-11 in a game in the 11th district set on him in the midst of a game and after holding and searching him found three sets of loaded dice on his person. Noa, who is a Hawaiian, was arrested after the game, and is held for investigation.

The sailors say Noa accomplished the phenomenal feat of making 10 straight passes and thus attracted their attention to the possibility that he had "phony" dice on him.

BAD WEATHER KEPT MANY FROM SERVICE AT Y. W. C. A.

Yesterday afternoon's Thanksgiving service at the Y. W. C. A., held to give thanks for the fine results of last week's financial campaign, was very successful, but the attendance was small owing to the threatening weather. Mrs. Walter F. Frear, president of the association, led the meeting, and Mrs. W. D. Westerland was at the piano.

RECEPTION ALL READY BUT WILL WALSH BE THERE?

Former Governor of Massachusetts Now Reported Not on Great Northern

The Democrats of Honolulu are all ready to give former Governor David I. Walsh of Massachusetts a big welcome tomorrow—and now comes the news that he isn't aboard the Hill liner Great Northern. Though a reception committee, headed by the governor, has been organized, it is feared that Mr. Walsh will not be received for the reason that he isn't coming tomorrow.

Judge A. A. Wilder, wishing to entertain Mr. Walsh at a social function he is planning, wireless out to the Great Northern last Friday night and reports today that the Massachusetts man is not aboard. He also wireless out to the Matsuna, with similar result. It is believed that Governor Walsh postponed his trip, but this may not be definitely known until the arrival of the steamers tomorrow.

At a late hour today it hadn't been decided whether the reception committee would meet the Great Northern "on spec" or not.

On the reception committee which was to meet Mr. Walsh at the dock are: Governor Pinkham, A. A. Wilder, Judge C. W. Ashford, Collector of Customs Malcolm A. Franklin, Justice E. M. Watson, Territorial Treasurer Charles J. McCarthy, High Sheriff W. P. Jarrett, Postmaster Young, United States Attorney Horace W. Vaughan, John Effinger and Bertram G. Rivenburgh, Tax Assessor Charles T. Wilner, L. L. McCandless, T. J. Ryan, John H. Wilson, Palmer P. Woods, Joseph Lightfoot, G. J. Waller, Harry Irlwin, Secretary Wade Warren Thayer, Collector of Internal Revenue John F. Haley, W. H. McClellan, Joseph J. Fern, Jack Kalakala, W. A. Bryan, James P. Lynch and other party men.

HONOLULU PEOPLE GET INSTANT ACTION

Those who have used it in Honolulu are astonished at the INSTANT action of simple buckhorn bark, glycerine, etc., as mixed in Adler-ika. Because it acts on BOTH lower and upper bowel, ONE SPOONFUL Adler-ika relieves almost ANY CASE constipation, sour stomach or gas. It removes such surprising foul matter that a few doses often relieve or prevent appendicitis. A short treatment helps chronic stomach trouble. The Hollister Drug Company.—Adv.

SOUL CLOTHED IN ROBE LIKE CAESAR WORE

In the film drama "St. Elmo," now showing on the new National theater's screen, the Saviour and the devil are portrayed in juxtaposition several times in the course of the picture as contending for the soul of the hero. It is a deliberate "lifting" of these characters from the Bible and causing them to do things not told of in Holy Writ. Some who saw the film Saturday evening openly condemned it, declaring its tendency is to cheapen the popular conception of the Holy One.

In "St. Elmo" the man's soul is shown departing from his body and the devil usurping his place in the flesh. As it leaves, the soul is seen garmented in the raiment of old Roman fashion. If the soul of modern man must be clothed at all, why must it wear Caesar's robes, which are distinctly out of fashion today? The play is an interesting one and draws large crowds.

Two good vaudeville acts also are appearing at the National. Walter De Oria is clever in his bag punching stunt, and Morris Golden, the "Yiddle with the Fiddle," combines a fine ability as violinist with facility as a mirth provoker.

RIPE COFFEE HARD HIT BY BIG STORM

Ripe coffee in the North Kona country, Hawaii, with the exception of Kailihiki and Honaunau districts, suffered considerably from the recent heavy storms, according to John P. Curtis, manager of H. Hackfeld & Co., Kailua.

Mr. Curtis says the wind stripped the trees, blowing coffee berries and leaves to the ground. The second storm did not strike the Kona district. Mr. Curtis thinks that there is good prospects for a heavy crop in 1916. Yields have been very poor the past season in all of the Kona districts except Kailihiki and Honaunau.

Fire caused heavy damage to the tobacco cargo of the Spanish steamship Antonio Lopez in port at Toulon, France.

BRIGHT'S DISEASE

We proclaim this new FACT IN PHYSICS—Influence the renal tract with an agent that opposes renal granulation and degeneration and urinalysis will, in many cases, within 20 days begin to show diminishing albumenuria in Bright's disease.

The prescription counter having been without an agent to diminish albumenuria (see Tyson page 155) the importance of an Anti-Abumenuric is paramount and manifest.

That albumen can be reduced and that many of those succumbing to Bright's disease can have lives prolonged to other terminations has been established by urinalyses, and confirmed by disappearing symptoms in several thousand cases many involving dropsy and some, tapping.

The presence of albumen being a PHYSICAL FACT and its disappearance a FACT IN PHYSICS, there is no uncertainty as to the results that have been and are being obtained.

The Anti-Abumenuric (Fulton's Renal Compound) can be had at the Honolulu Drug Co. Ask for pamphlet. Current bulletin of recoveries and rationale mailed on application. John J. Fulton Co., San Francisco, Cal.—Adv.

Wear-Ever Aluminum Ware

Costs no more--wears longer

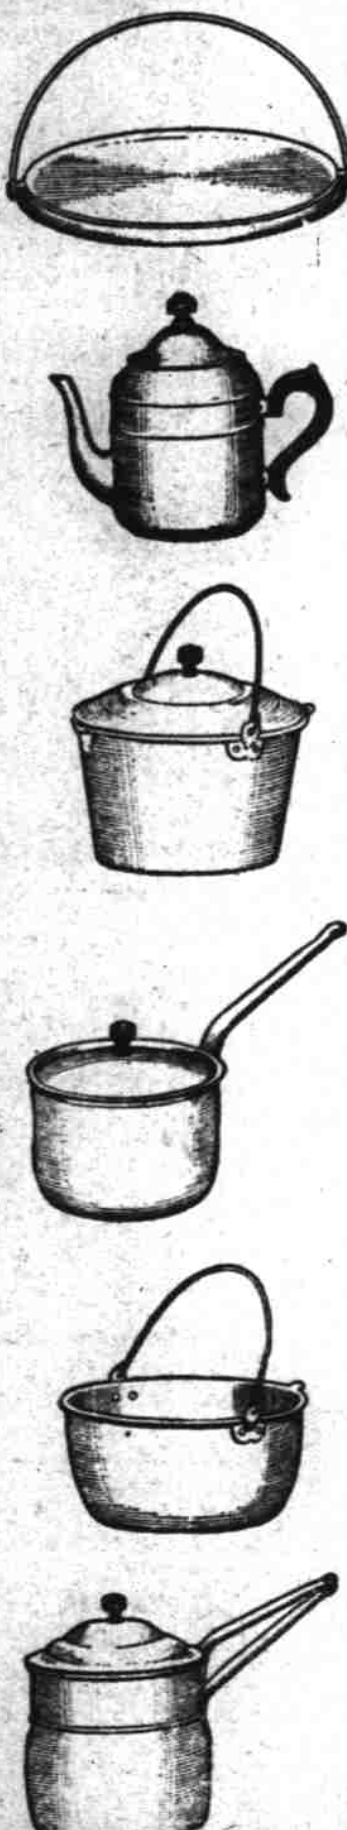

Hold by the edge on aluminum pan and an enamel pan of the same size, so that the sides opposite your hands are in a small flame, as shown in this picture. You will drop the aluminum pan first.

This proves that

"Wear-Ever" Aluminum Utensils

become heated throughout more quickly than enamel utensils. Food therefore can be cooked in aluminum ware with less fear of scorching and with less fuel. "Wear-Ever" utensils save you food and expense, time and temper.

Each "Wear-Ever" utensil is made without joints, seams or solder, from thick, hard sheet aluminum. Strong, light to handle, cannot rust, cannot form poisonous compounds with acid fruits or foods, practically everlasting.
